Mr Liew  
Company name: WhatIf Solutions Sdn Bhd  
Email:  
[alan.liew@whatifsolutions.my](mailto:alan.liew@whatifsolutions.my)

Dear Mr Liew,

With enormous drive and a strong desire to succeed, I am eager to submit my application for intern position at your company. I am a final year student at Tunku Abdul Rahman University of Management and Technology (TARUMT) currently pursuing Bachelor of Software Engineering (Hons).

As a student, I possess hands-on experience in software and application development. For instance, I am currently working on my Final Year Project—a mobile travel recommender application that leverages the power of machine learning algorithms. Additionally, I have successfully developed several web and mobile applications, including an online ticketing system and a mobile application facilitating food bank donations. I participated in many of my school's extracurricular activities, which provided me with significant experiences and helped me enhance my soft skills. In recent years, I've been involved with a number of clubs and societies, serving on committee boards in some of them. I've participated in numerous school activities and competitions, as well as some volunteer activities. In addition to being involved in extracurricular activities, I was able to keep up with my studies and maintain a high CGPA of 3.88 during my time TARUMT.

During my past internship at Sophics Automation Sdn. Bhd., I had the privilege of gaining invaluable hands-on experience in the field. Throughout my internship, I was immersed in a dynamic and professional environment, which provided me with the opportunity to apply my theoretical knowledge to real-world projects and challenges.

My relevant skills for this position include:

- **Programming Languages (C, C++, SQL, Java, HTML, Python)**
- **Web Development (Front-end and Back-end)**
- **Mobile Development**
- **Database Management**
- **Software Development Life Cycle**
- **Collaboration and Communication**

With my current skillset, my past experiences along with my dedication to continue learning and gain new experiences, I believe that I can help and offer my services to your company. I would very much appreciate the opportunity to work and serve for your company. I am keen to keep on improving myself as a person as well as my professional skills in this field of work.

Although the original period of the internship is from 12 February 2024 to 28 July 2024, which is 24 weeks (6 months), I am open to extending the internship period up and start earlier of the stated date. I hope you would consider my application for this position. I can be contacted through my email, [geremytyt-pm20@student.tarc.edu.my](mailto:geremytyt-pm20@student.tarc.edu.my), or by phone, 018-4706811.

Thank you for your time and consideration.

Sincerely,  
Jeremy Tan Yen-Tsen
